Ideas on: Finding Misspelled Words

"My students had weak spelling skills. Whenever I asked them to hand in the final draft of an essay using spelling words, there would still be mistakes. In the past, I corrected the misspelled words and handed them back but I don't anymore. Now I tell my students how many words they misspelled and they have to find the mistakes themselves. This process forces the students to study the words more carefully."

Riding the Bus? Safety Tips AND Reminders for Students

approximately 26 students were killed and another 9,000 were injured in incidents involving school buses last year, according to the National Safety Council.

- Always keep a safe distance between you and the bus.
- Use the handrail to enter and exit the bus, especially when it is wet or snowy. Slipping on the steps can be dangerous.
- Be aware of the street traffic around you. Drivers must follow certain rules of the road concerning school buses, but not all do.

Every Spring Hill USD 230 Employee, every Spring Hill resident who has children, who has had children, or plans to have children in the USD 230 School District SHOULD have voted YES in June for the USD 230 Capitol Outlay fund to be reinstated.

WE are here to say: IF you voted no, shame on you. Perhaps you were terribly, horribly, and dreadfully misinformed.

Were you afraid your taxes would go up? Well, guess what? Had you voted 'yes' to the Capitol Outlay fund, your taxes would NOT have gone up—we can prove it.

So THANKS FOR NOTHING from all the custodians who need supplies to do their job

Thanks for nothing from the maintenance personnel who need to mow the grass and keep the machinery running; and mostly thanks for nothing from the teachers and students who would like to have the potential leaky roofs fixed, the potholes in the parking lot repaired, the playground equipment fixed, and all the other NECESSARY maintenance and repairs essential for your school district..
